

DBA ADMISSIONS POLICY

Applicants for the doctoral program must apply for a specific discipline area and will be evaluated by the faculty in that discipline area on multiple factors. These factors include: GMAT score, undergraduate and master GPA, undergraduate and master institution(s), and motivation to complete and excel in the doctoral program. Motivation to complete and excel in the doctoral program will be measured through a personal interview and a statement of purpose. The statement of purpose will be a 1-2 page synopsis of why the applicant wants to earn a doctorate and what the applicant is willing to do to successfully complete the process. An applicant must have the support of the majority of the doctoral faculty members and the Department Head in the discipline to which he/she is applying in order to be admitted.
